Staff Changes

Doctors Jane Ince, Shahbaz Sharif, Lekshmi Panicker and Saber Alemi have all left the Practice for pastures new. They will be sorely missed by many of our patients.

Jane has completed a 5 year contract with us which is part of the Retainer Scheme specially devised for those ladies returning to work after having a family. She is acting as a locum in the area , so we may see her again at the surgery.

Shahbaz has completed his vocational training and has secure a post in a Leicester surgery.

Lekshmi has returned to Peterborough Hospital to finish her vocational training.

Sabre, who was on a foundation course, has secured a place on the Peterborough Vocational scheme.

In early August we welcome **Doctors Elizabeth Fooks-Bale and Morooj Mohammad**. We hope they enjoy their stay and we are looking forward to working with them.

Services Changes

Text Messaging is to be introduced within a few weeks. If you have a mobile phone, and you agree to be contacted by this method, we will send messages such as test results, appointment reminders and other health related messages. We are all users of mobile phones ourselves and sensitive to the fact that too many messages can be an irritation. We intend to keep it to a minimum.

Additional Clinic Times are to commence at the beginning of September. Routine appointments with a GP will be available one evening a week until 8pm and on a Saturday morning from 8am. Further details will be published in the surgery and on this web site

Influenza Clinics will be held on Saturday the 2nd of October and the 9th of October. We intend to have pre-booked slots available as this was mentioned by quite a few patients last year and we felt it was worth trying this year.
